

I am a life long animal lover and cat enthusiast. As a child I had many different pets, including a skunk and a snake, but cats are my favorite. As an adult I've been staff to seven cats, each with their own personality and charms. Currently I share my space with Biz, an outgoing classic tabby.

I've been a Capitol Hill resident since the 1980s, and got to know the area so much better through walking during the pandemic. One of the highlights was discovering cats along the way, some indoor and some outdoor. I am looking forward to meeting and caring for your cats.
